

Hazcam Autonomous Fire Detection and Alerting System

The Hazcam Fire Detection and Alerting System detects fires over long distance and automatically sends alerts via SMS, Email or Web Portal. Hazcam is waterproof, rugged, industrial grade technology with built in Artificial Intelligence that works 24/7/365 alerting you to Fire and other potential Hazards. Hazcam communicates over 4G Wireless Mobile Networks and requires only a single 12Volt power source from a battery or Solar Panel.

Smart Hybrid Fire Detection Camera

- 256x192 VOx uncooled thermal sensor technology
- Athermalized Lens (thermal), Focus-free
- 1/2.8" 2Megapixel progressive scan CMOS
- Support ROI, motion detection, color palettes
- Smart alarm linkage with white light & loudspeaker
- Support Fire detection & alarm
- Built-in 2/2 alarm in/out
- Micro SD memory, IP67, PoE/ePoE

Hazcam Multi-Stream Processor supports up to 4 Smart Hybrid Fire Detection Cameras
